Long time
Mrs Grest
2 Nov

As a woman, as an officer from the National Women's Council, I am totally amazed to see how powerful ^{this has been realised} project of Women in the Daily, by the support of Mrs Grest, our spiritual lady with the collaboration of Mrs Foster, Miss Pughony, the staff at Council and myself too to have the opportunity to work in this project under the supervision of Mrs Pughony & Manager while I was at Head Office.

I could see "life + hope" being built through this project & this has been a 1st one in our organisation & enabled these women to express their lives story (whether was pain, hopes, suffering, struggling but at the end there was this power that brought them in this world of women in the dark to women in the light. I congratulate Mrs Grest for this laudable project in action. It's a god's gifted talent given to her to voice out.

19/8/2019.

It was really nice to see a dedicated place to allow women to express themselves which place they rarely find. Best wishes to live a life of their own to these women as well as to all women who visit this beautiful place.

As a woman I am proud to form part in the project of women in the dark I have been able to express my deep feelings as a wife and a mother to write the painful moment of my life as a woman when my husband was in a critical stage of health and few days were left for him. I build up strong capacity in myself and stood as a woman to look after him and family by showing hope while from inside I was crying suffering and these feelings were blend into a fear of what will happen to us after

Days passed now he is no more but my strength has been able to show off through the writing in this shirt where I discovered that this action delivered me from my pain and my strength overcome my fear. Thanks to the N.W.C for this project through the women in the dark

des femmes mauriciennes! Anne et Vivian, France

Thank you for this amazing work. There should be more exhibitions like this to empower women all over the world.

Thank you for bringing such awareness. A lot of women go through such inequality. I hope the world changes to a better place and all women to fight for our rights and freedom.

IT IS CRAZY THAT IN THE 21ST CENTURY, WE ARE STILL FIGHTING FOR EQUALITY.

Le projet de Dieu depuis l'éternité est que l'homme soit heureux, alors on ne peut qu'encourager de telles initiatives visant à dénouer les angoisses, les douleurs, les pesanteurs intérieures des femmes, car tous nous sommes appelés à jouir de ce don qu'est la création et plus précisément la « vie »

Some messages I could relate to. Touching. Lots of emotions expressed & each piece of fabric conveyed the feelings of these women with intensity, or joy or love or pain. Very interestingly put together project to help women voice out authentically. I'm happy to witness them express in such way. Grateful to be present & to the all who were involved

in putting up this project in Mauritius.
